CVAS shelters, protects, and adopts homeless animals in a service area comprised of northern Franklin County and parts of southern Cumberland County. We also provide services such as dog licenses, animal cruelty investigations, pet therapy, micro-chip and rabies clinics, and educational programs.

By the start of the twenty-first century, the shelter was showing the physical signs of the demands placed upon it by the decades and a growing population and increased demand for services. In short, the site is antiquated and overcrowded. The question of whether to move was answered when CSX built an intermodal on property contiguous to ours and eventually purchased the shelter and its land as well.

In 2009, we commenced the *Rallying to Relocate* Capital Campaign to construct a new facility. At the end of last year, we began the third and final phase: the completion of the interior.
